

River Marsh Golf Club is excited to announce our upcoming fairway renovation project slated for July 8 thru August 18th, 2024. All fairways, tee boxes and approaches will be transitioned from bent to Bermuda grass in efforts to decrease our environmental footprint and create an even better playing surface for our golfing guests. While we understand the inconvenience in this timing, it is the best possible time of year to grow heat tolerant Bermuda on the course.

During this time of course closure, we are happy to report that many other aspects of the Club and facility will be open and available to you. Please let our team assist you with options during this time frame and we will look forward to hosting you at summer's end for an even more enjoyable return round at River Marsh Golf Club!

Golf options available during course renovation:

- Our River Marsh Golf Clubhouse, "The Cove" and Eagles Nest Grille will remain open; hours may vary.
- Practice greens and driving ranges will be open and available; contact a team member to confirm availability and preferred timing. Fee associated with driving range only.
- Lessons, clinics and instruction will be available rain or shine! Take a lesson at our driving range or stay inside and "grow your game" on our golf simulator.
- Driving Range Happy Hour events and any other special events may be held at the driving range; let us know if we can entertain your guests or arrange a special time for you at our practice range.
- "The Cove" is open and available to use our new golf simulator. Book a tee time at Pebble Beach or Bandon Dunes or hit the driving range with your family! Lots of fun target games available. Tee times may be booked online via our course website or thru our Pro Shop.
- We are working with local partner courses to provide recommendations and availability to guests looking to play a full round; the Professional staff will be on hand and available to assist with bookings leading up to and throughout the transition. Contact our Golf Pro Shop for more details and suggestions based on your preferences; 410.901.6397.
